

The UC Santa Cruz Arboretum & Botanic Garden and the
Ray Collett Rare and Extraordinary Plants Lecture Series presents:

An evening with

Matt Ritter, Ph.D

Discussing his new book

California Plants: A Guide to Our Iconic Flora

Saturday, May 19, 2018 7pm

Hort II Meeting Hall,

UC Santa Cruz Arboretum & Botanic Garden, Santa Cruz

Dr. Matt Ritter is a botany professor in the Biological Sciences Department at Cal Poly in San Luis Obispo, California, where he studies California's native plants and cultivated trees. He's the author of several books, including the funniest and best-selling guide to California's urban forest: **A Californian's Guide to the Trees Among Us**. **California Plants** is the definitive field guide for exploring California's spectacular flora. It features over 300 pages with more than 500 species described or photographed, more than 1,000 full color photographs, 150 species range maps, detailed descriptions, and fascinating natural history.
