June 6			The Nature Conservancy- Conserving California's Coastal Habitats (TNC-SCC_ Coastal Assessment)

Copies of the reading from the Natural History of the UCSC Campus (a great book and available the first day of class and at the UCSC bookshop) and relevant articles will be available on a class Google Drive.

California Naturalist Handbook can be purchased both online... Google play has an ebook ... and the first day of class.

Available via Youtube are guided walks through the main ecosystems of California lead by Erika Zavaleta.
