

THE SANTA CRUZ COUNTY CHAPTER of the  
CALIFORNIA NATIVE PLANT SOCIETY  
is proud to announce the publication of the

## Annotated Checklist of the Vascular Plants of Santa Cruz County, California

by Dylan Neubauer

Presented in an easy-to-use format,  
this comprehensive update of the 2005  
edition summarizes the latest information  
on the 1594 vascular plant taxa currently  
known to occur in Santa Cruz County.

The 166-page, spiral-bound, 5½ x 8 in. book includes:

- Botanical artwork by Tim Hyland
- Maps by Ben Pease—including a new color map of the County showing public lands & Sandhills
- Detailed instructions on how to use the *Checklist*
- An expanded introduction discussing the County’s botanical history as well as its botanical “hotspots” and special areas
- A list of all local taxa arranged alphabetically by family using the latest nomenclature from *The Jepson Manual, 2nd Edition* & the Jepson eFlora.
- Locality information for listed & “locally rare” taxa
- Appendices treating legal rarity status, endemics, extirpated taxa, undescribed taxa, the most invasive non-natives, and more
- An expanded, 64-page “Notes” section, including tips for identifying difficult taxa, taxonomic issues, habitat information for rare taxa, and more
- An Index to local plant families & genera with new names cross-referenced to superseded names from the first edition of *The Jepson Manual*
